

*Do you need help managing your child's health care needs?*

## **The Summit Center can help!**

At The Summit Center, we know that caring for a child with chronic physical, mental or behavioral health conditions can be complicated and sometimes exhausting. Children's Health Homes is a service that provides a *care manager* – the extra support you need - to help your child's caregivers and providers communicate with each other.

**How it works:** A Summit Care Manager will work with you side-by-side to ensure that your child has access to needed services and supports to stay healthy, out of the emergency room, and out of the hospital. Services include:

- Help setting health goals and working with you to help your child meet them
- Help coordinating medical appointments, transportation, prescription refills
- 24/7 availability for information and emergency consultation
- Coordinating transition plans between providers
- Individual and Family Support
- Referral to additional community and social support services if needed

***Enrollment is free for eligible children.***

### ***Eligibility:***

- *Children (birth to age 21)*
- *enrolled in Medicaid who have*
- ***two or more chronic health conditions*** (including, but not limited to, *Asthma; Obesity; Diabetes; Migraine; and Premature birth*)
- ***or one single qualifying condition*** (including *HIV/AIDS, Serious Emotional Disturbance, and Complex Trauma*)

**For more information, please call 716-629-3400**
