

Are you concerned about challenging behaviors?

Much can be learned in the first 30 days to prevent challenging behaviors from becoming persistent or inappropriately accommodated.

The First 30 Days: Troubleshooting & Overcoming Challenging Behaviors

A **virtual workshop** for educators and school personnel

You'll learn proven strategies and interventions that:

- Identify and overcome barriers
- Consider the role of neurodivergence and mental health
- Foster the development of adaptive alternative behaviors
- Increase participation, inclusion, and academic success
- Maximize the impact of "team"
