

The First 50 Days Workshop Testimonials

“Because I was the sole person in my school ‘group’ attending this virtual workshop, and much of this was a team approach, I will need to nurture some buy-in. I’ve already praised the workshop content to my principal. I intend to approach 2 upcoming student meetings with strategies presented in the workshop.”

“Dr. Meichenbaum did an excellent job. I have worked with him in the past and many of my staff have not, so I had them register for the workshop as well. We have already had some great conversations about the presentation today.”

“Great presentation. Very valid thoughts and ideas to implement.”

“I loved this training. I thought it was very informative, and the instructor was very down to earth and delivered the material in a way that made it really easy to understand.”

“This was the most relevant and helpful seminar I have attended in years.”

“Very eye opening to see how the accommodations on IEPs are not really addressing the skill deficits.”

“This webinar was so useful. I have been beating my head against the wall ‘trying everything,’ or so I thought. Coming at challenging behaviors from a different angle or way of thinking/reframing has me feeling hopeful again. The Team approach, while seeming obvious, makes perfect sense. We often chat in passing but to actually meet with the same goal in mind, the student’s ultimate success, will be a game changer. I am so glad I signed up for this session! I will most definitely recommend his other workshops to others. Thank you so much!”
